TEST REPORT

This document explains the various activities performed as part of testing 'Plus500' trading web application.

'Plus500' is a web app that provides online trading services in contracts for difference (CFDs). There are several modules like Sell, Buy, Close position.

Manual On Scope
Functional Testing for the following modules are in Scope of Testing
- *Login*
- *Buy*
- *Sell*

Automated Not On Scope (yet?)
Functional Automated Testing is in progress
- *Browser compatability*
  Encoutered some problems with geckodriver marionette and chromedriver when debbuging code in behave and python, couldn't extract inspected elements to the scripts. Searching for a fix or atleast a workaround.

Test Cases Planned vs Executed

Manual Tests			
Test Cases planned	Test Cases executed	TC passed	TC failed
4	4	4	0

Automated Tests			
Test Cases planned	Test Cases executed	TC passed	TC failed
4	0	0	0

Defects and Severity					
	Critical	Major	Medium	Cosmetic	Total
Closed	0	0	0	0	0
Open	0	0	0	0	0
